Corrigendum/Addendum to Pre-Bid Queries raised by prospective bidders

Date: 18-09-2024

Ref: NIT issued for Rate Contract for Serology Diagnostic Kits Tender ID No: 2024_NIA_823450_1.

A pre-bid meeting was held on 04-09-2024 at 03:00 PM in the Central Store /Conference Hall, of NIA, Jaipur as per above referred Tender. Though most of the queries raised by prospective bidders were clarified during the meeting, following Corrigendum/Addendum for some crucial queries is hereby issued.

The following Corrigendum/Addendum in response to queries raised by prospective bidders shall form an integral part of bid document and it may amount to an amendment of relevant of the bid document-

S.N	Rate contract for supply of Serology and Diagnostic kit		
	Tender Specification	Bidder suggestion	Amended /Clarification
1	S.N.-01 VDRL(ASPEN/ JMITRA/OZONE/ ANGSTROM), 1KIT(50 CARD)	As Meril also has good quality product and already supplier to many corporations and good organizations. Request to add Meril Diagnostics Pvt. Limited Company's name in panel of asked companies.	Agree and S.N.-01 should be considered as VDRL(ASPEN/JMITRA/ OZONE/ANGSTROM/ MERIL) Pack Size-1KIT(50 CARD) Justification : Dept. has already used the MERIL in the Past & Quality is also Good.
2	S.N.-04 HbsAg (JMITRA/OZONE/SD BIOSENSOR/ ABBOTT/ MERIL/ HEPACARD) 1KIT(50 CARD)	Asked sensitivity is 0.1 ng/ml is asked in Ultra Sensitive ELISA kits. Normally available kits in market is having sensitivity of 0.5 ng/ml. So please amend to 0.5 ng/ml. The global standards set by the WHO aim to address the needs of various countries, but they may not always align with the local epidemiological requirements of the Indian population, making prequalified tests potentially less suitable. Moreover, complying with WHO qualification standards can unnecessarily drive up the cost of these tests by 200-300%, even when they provide the same sensitivity and specificity. In contrast, the guidelines and criteria established by Indian regulatory authorities like ICMR, NIV, and NACO are equally stringent and are specifically tailored to the Indian population, promoting inclusivity among Indian manufacturers without favoring a select few.	1. Agree and Bidder suggestion in S.N.-04 regarding increasing the detection limit to 0.5 ng/ml is accepted. Justification : Due to the Non Availability of kit with detection limit 0.1 ng/ml in the market, detection limit has been increased to 0.5 ng/ml. 2. The request of deleting the clause of the product should be WHO prequalified is not accepted./No change
3	S.N.-09 HIV (MERIL) 1KIT(50 TEST)	The global standards set by the WHO aim to address the needs of various countries, but they may not always align with the local epidemiological requirements of the Indian population, making prequalified tests potentially less suitable. Moreover, complying with WHO qualification standards can unnecessarily drive up the	1. Agree and S.N.-09 should be considered as HIV (MERIL/ JMITRA) Pack Size-1KIT(50 TEST) 2.
